Happy Holidays from H.O.P.E. for Animals

Dear Madeleine,

It was a cold, snowy day in February when Daisy arrived at our clinic. She was an old Saint Bernard that was underweight, dehydrated, and bleeding. She had no life left in her eyes. Daisy needed an immediate spay surgery due to the infection in her uterus called, pyometra.

After going to a full-service veterinary clinic, Daisy's owners found out they couldn't afford their prices, leaving them feeling helpless. They heard about HOPE for Animals and drove for over an hour to bring their beloved Daisy here. With your gift, we can **help relieve that helpless feeling** and assist other pets just like Daisy who are in a life or death situation.

AFTER SURGERY

An 8 year old St. Bernard

Since opening our doors in 2010 we have completed more than 38,000 spay/neuter surgeries and provided wellness care to over 50,000 animals. **Lives are being saved**, and we are on our way to making Fort Wayne an animal friendly city. [Be a part of this by donating today.](#)

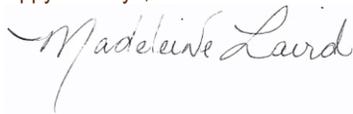

Ten days after Daisy had surgery (she had 6 pounds of infected uterus removed) she came back to our clinic to get her staples removed. She looked much happier and definitely healthier! Best of all, she had life back in her eyes. Thanks to your gift, in just one visit to our clinic, Daisy's life was transformed. **Our mission is to eliminate unnecessary euthanasia and make sure that every pet owner has a clinic to go to if they are in financial need.**

That's why we need your help. [Your gift today can help us save more lives and prevent unwanted litters from being born.](#)

Any gift amount will help provide a low-cost surgery for a pet like Daisy.

Thank you in advance for helping us work towards changing the lives of animals.

Happy Holidays,
