HOPE for Animals

Free Surgeries for Community Cats in 46806

Thanks to a generous grant from [PetSmart Charities](#), we are able to offer free surgeries to outdoor community cats living in 46806, until funding runs out. Community Cats are outdoor, unowned, free-roaming cats. If you are feeding any in this zip code you can have them spayed/neutered, vaccinated for rabies, microchipped and ear tipped at no cost to you. The ear tip is mandatory. For those caring for large numbers of cats in this zip code, [contact us](#) and see if our Community Cat Crew can help with trapping of the entire colony. Learn why we focus on one zip code at a time [here](#).

Community Cat Shelters

Donations of Styrofoam Coolers, Rubbermaid Totes and straw are needed to help us build shelters for outdoor Community Cats. With winter quickly approaching hundreds of cats will need shelter to stay warm. If you are able to donate any supplies and can't drop them off during normal business weekday hours, feel free to come by our clinic on Saturday from 8am-3pm. Please [contact us](#) if you have any questions.

Prissy's Fund

Thanks to a generous donor, we now have money set-aside to aide limited income people who can't afford [wellness care](#) for their pets. [Prissy's Fund](#) was created in memory of Theresa's dog Prissy, a senior aged dog she adopted from Texas. Theresa felt grateful that she was able to afford all the treatments Prissy needed to make her live longer. She wanted to make sure all pet owners had a resource available if they needed wellness care for their pet.

Wellness Clinic Fall Special

Through the end of November you can get the rabies and distemper vaccines, heartworm test, microchip and exam fee for ONLY \$60! To schedule your [fall special](#) appointment call 260-420-7729 or come in during our walk-in hours Tuesday-Friday 1-5:30pm and Saturday 12:30-2:30pm.

Trailer or Shed Needed

HOPE is looking for a trailer, small barn or shed for community cats to recover in. When the weather drops below freezing, we don't want to release community cats back to their home immediately. If you would like more information or are interested in donating a facility please [contact us](#).
